Experience

Runtime Solution Pvt. Ltd.

MERN Stack Developer

Sep 2025 – Present

Mumbai, India

- Developed and maintained responsive full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Integrated Zoho CRM and Zoho Desk APIs for lead management, customer support, and workflow automation.
- Built scalable RESTful APIs and integrated frontend applications with backend services efficiently.
- Implemented authentication and authorization using Clerk and JWT for secure user access.
- Managed project deployment using Vercel and collaborated with the team using Git and GitHub.
- Optimized UI/UX using Tailwind CSS and Next.js for better performance and responsiveness.

Cloud Counselage Pvt. Ltd.

Full Stack Developer Intern

Feb 2025 – Sep 2025

Mumbai, India

- Developed a responsive full-stack web application using MongoDB, Express.js, React.js, and Node.js.
- Implemented RESTful APIs for backend functionality and integrated them with the React frontend.
- Used MongoDB Atlas for cloud database management and data persistence.
- Implemented user authentication and authorization using Clerk for secure access.
- Styled the application using Tailwind CSS for a clean and modern interface.

Xupoli Technologies Inc

Software Testing Intern

Aug 2020 – Nov 2021

Mumbai, India

- Performed manual testing on web and mobile applications to validate features, functionality, and performance.
- Identified and documented bugs, coordinated with developers for bug fixing, and conducted regression testing after fixes.
- Designed intuitive and responsive UI layouts for web and mobile applications using Figma.

Projects

Travel East | MERN Stack, Next.js, Tailwind CSS, REST API

2025

- Developed a responsive travel and tourism platform using MERN Stack and Next.js.
- Implemented dynamic UI components, API integrations, and optimized responsive layouts using Tailwind CSS.
- Integrated backend APIs for package listings, inquiry forms, and customer interaction features.

Packio | MERN Stack, Zoho CRM, Zoho Desk, REST APIs

2025

- Designed and developed a logistics and fulfillment management platform using MERN Stack.
- Integrated Zoho CRM and Zoho Desk APIs for lead management, ticket creation, and customer workflow automation.
- Implemented RESTful APIs and responsive frontend interfaces with optimized user experience.

Survey App | MERN Stack, MongoDB, Express.js, React.js, Node.js

2025

- Built a dynamic survey management application with authentication and real-time form handling.
- Implemented CRUD operations, survey analytics, and responsive dashboards for users and admins.
- Integrated backend APIs with MongoDB for secure data storage and management.

BMC CSR & NABARD | *MERN Stack, Next.js, Tailwind CSS*

2025

- Developed CSR and government initiative platforms with responsive UI and scalable backend architecture.
- Implemented API integrations, form handling, and dynamic content management functionalities.
- Optimized website performance and accessibility for large-scale public usage.

Support Direct India, Xanadu, Micron, and Others | *MERN Stack, Next.js, Tailwind CSS*

2024 – 2025

- Developed and maintained multiple business and logistics platforms using MERN Stack technologies.
- Implemented responsive frontend designs, backend APIs, authentication systems, and third-party integrations.
- Collaborated with teams using Git/GitHub and deployed applications on Vercel.
